"What is a tree?"

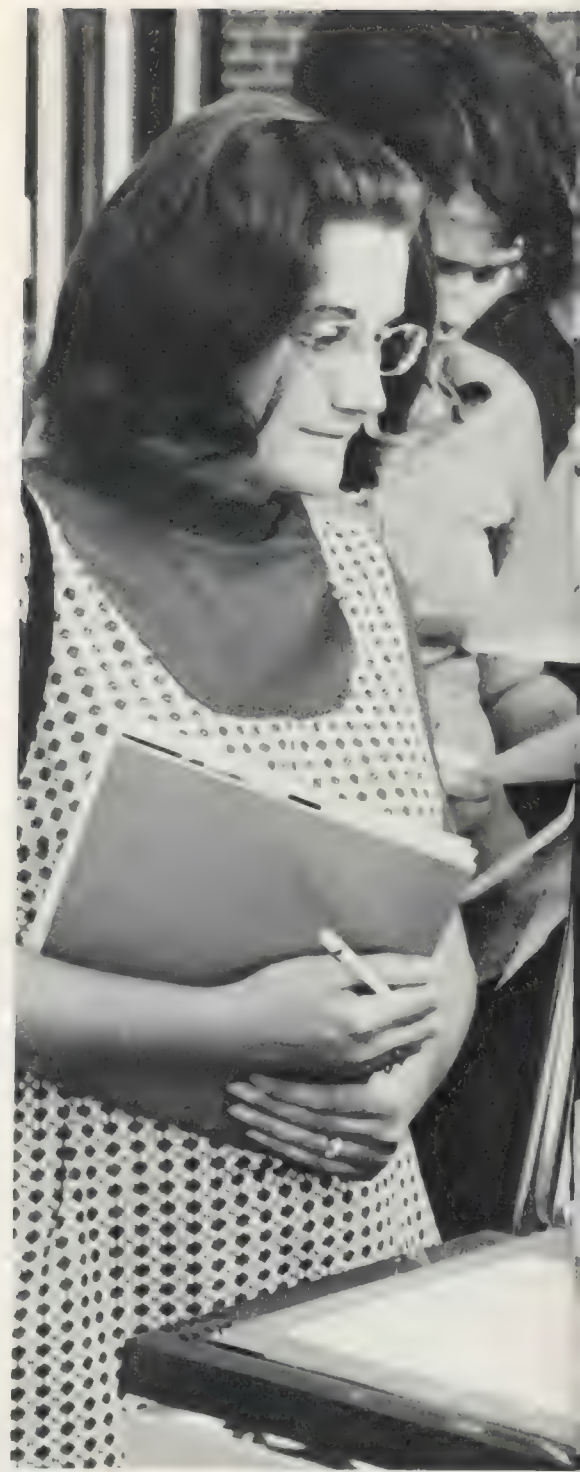

registration

A tree
is an innocent bystander,
a silent observer,

a witness of man

and his destruction.

A tree gives so much
but takes almost nothing.

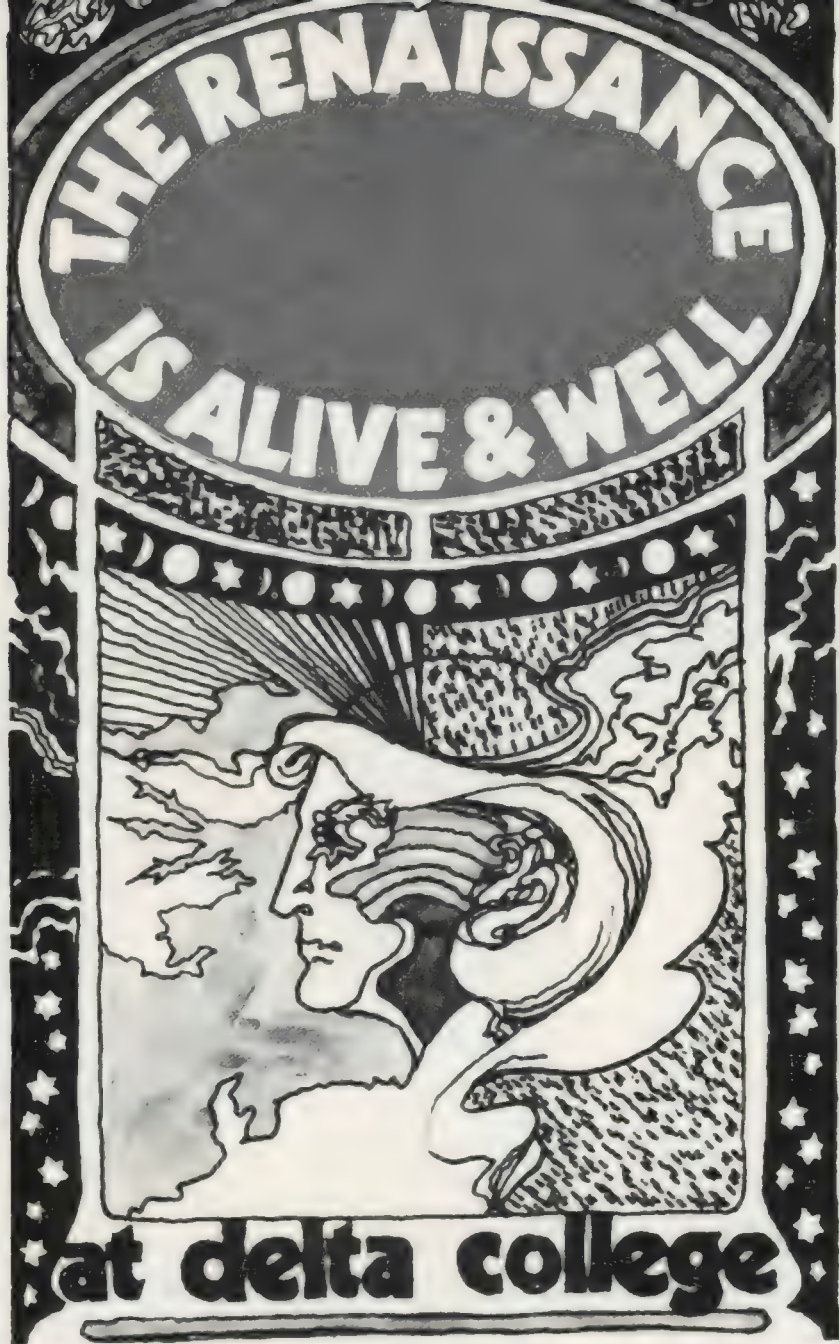

If a tree could talk,
advice it could give; after all, there

imagine the
is nothing

To the extent
of the constitution,

it is legal to wear
hair as long as they want.

women's volleyball

Kids want long hair because they say it is a form of self-expression.

but actually it is fighting
against the rules,

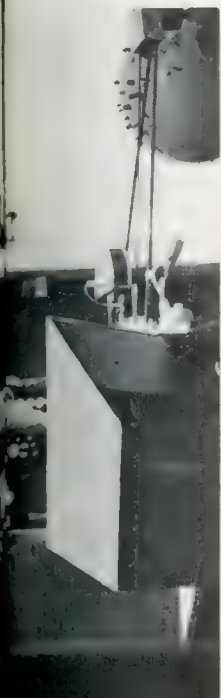

trying to defy something.

They should because the war

is
in

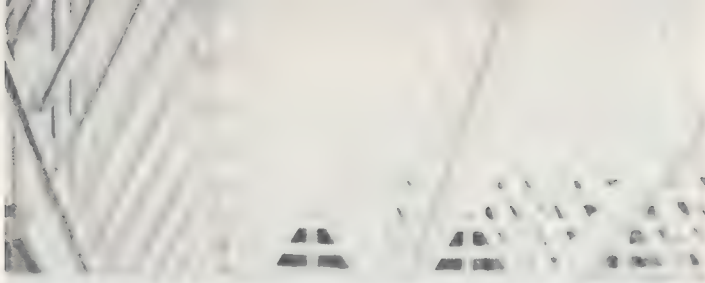

another country, not directly endangering

US

and should

be left alone to its own problems.

But then they shouldn't, because we

are committed to war, that country

signed the SETO treaty
and we are obligated

to help it in any way we can.

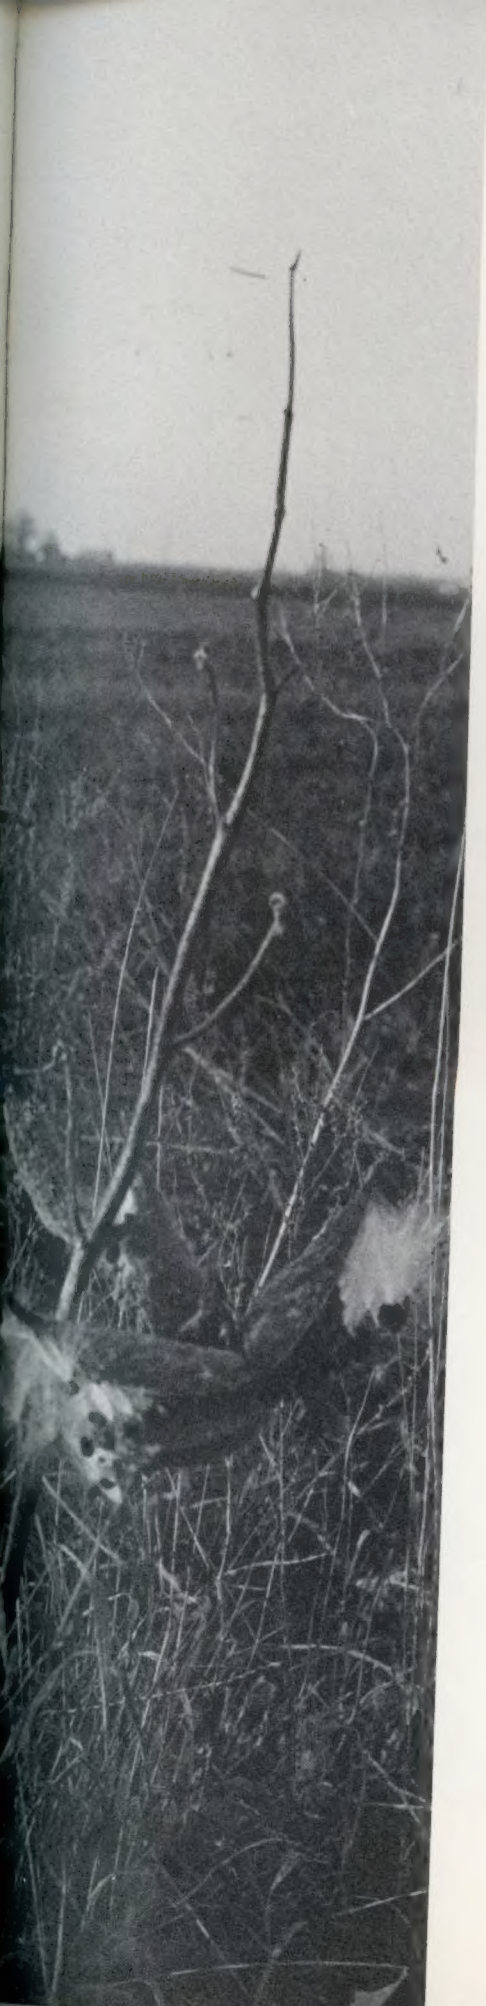

And wars
are
wrong,
totally.

Thank you, Mr. Tree.
